FROM ALL POINTS.

SPECULATIONS AS TO A LIGHT FOREIGN CROP.

American Grain vs. British Gold—Other Foreign News—A New York Mystery Cleared up.

LONDON, July 8.—The *Times'* financial article says: The firmness of the French exchange is said to be due to the prospect of demand by the United States in consequence of deficient harvest. Accounts from French wheatgrowing districts are certainly unfavorable, but looking at the enormous accumulation of gold both here and on the continent, it seems rather immature to speculate upon the probable effects of the drain thereof to America. The contingency of the Americans preferring to take their own bonds as was the case last year, it must be considered, and all probabilities are in favor of some improvement in our general business with America. It is also too early to assume as certainty that the European harvests will be seriously deficient.

The Atlantic and Great Western railway bonds were very flat yesterday owing to the decision of the Master of the Rolls in the suit of the Erie railway company against James McHenry, which is stated to be entirely in favor of the Erie company.

Restrictions on Corporal Punishment.

LONDON, July 8.—The scene in the House of Commons last night has caused much sensation. A section of Liberals have already obtained from the government great restrictions on the practice of flogging in the army and navy. Despite this they have endeavored by obstructions to force the total abolition of corporal punishment in the service. Marquis Hartington repudiated all responsibility for their action. Mr. Chamberlain, member from Birmingham, amidst Radical cheers said: "The Marquis of Hartington, who was formerly leader of the opposition is only leader of a section.

The Prussian Tariff Question.

BERLIN, July 8.—On the third reading of the Tariff bill in the Reichstag it was finally resolved on motion of Count Stohlberg Werningerode that the tariff on flour and fats shall come into force immediately, the tariff for grain and wood, on the first of October and for all other articles on the first of January, 1880. This arrangement postpones a change in the tariff on the bulk of articles for three months. Count Stahlberg says that preparations would not be sufficiently advanced for enforcement of a complete tariff on the first of October.

The Reichstag has rejected without debate the bill in favor of retrospective tobacco duty.

The Darien Canal.

LONDON, July 8.—A Paris dispatch to the *Times* says de Lesseps stated at the last meeting of the geographical society that he does not think the total expenses of constructing the Darien canal will exceed two hundred and fifty million francs. He endeavored to explain to the meeting that the difficulties of the work were not so formidable as those which had to be overcome in the construction of the Suez canal, as a railway already exists along the course of the proposed Panama canal, with a large town at each extremity.

A Singular Case.

GREENFIELD, Mass., July 8.—Great excitement prevails over the supposed murder of Miss Dooley, by a tramp, who was entertained by the young lady's parents, and who stopped at the house all night. Miss Dooley was found dead in bed with evidences of foul play. The girl's parents deny that she was murdered, and claim that death was caused by heart disease. A medical examination will be had.

The Blessed Rains.

CINCINNATI, July 8.—Telegraphic advices indicate that the general rain storms that have prevailed in the interior and southern Ohio and Indiana for the past few days have been of great benefit to the growing corn. The wheat has been damaged to some extent, though not sufficiently to make the valley affect the general result.

An Aldermanic Row.

NEW YORK, July 8.—A stormy scene took place in the meeting of the board of aldermen to-day, during which alderman Sauer openly and repeatedly charged alderman Haughton with having been bribed to support Vanderbilt's rapid transit schemes. Haughton denied the charge. A committee of investigation was called for and appointed.

Convention of the Hebraic Churches.

NEW YORK, July 8.—The sixth annual convention of the Union of American Hebrew congregations, began this morning in Sturtevant Hall, corner Forty-second street and Broadway, and was largely attended. A great deal of interest was manifested in the proceedings. The different reports were submitted, discussed and acted upon.

A City in Ruins.

LONDON, July 8.—A St. Petersburg despatch to the Daily *News* says: "The latest telegram states that the houses of fourteen out of fifteen wards, forming the most important part of Irkutzk, Siberia, were destroyed by fire on the 14th inst and that many of the inhabitants are homeless.

Another Elevated Road.

NEW YORK, July 8.—The Board of Aldermen met to-day by a vote of sixteen to five and selected a report of rapid transit commissioners, favoring Vanderbilt's scheme for an elevated railroad on Fourth avenue.

The Fairfield Centennial.

BRIDGEPORT, July 8.—The centennial anniversary of the burning of Fairfield, Conn., by the British troops under General Tryon, was celebrated at that place to-day with appropriate ceremonies.

More Bodies Found.

ST. PAUL, July 8.—A special dispach from Redwing, Minnesota, says four more victims of the destruction of the storm of the orphan asylum at Vasa have died, making thirteen in all.

Rumored Appointment.

ST. PETERSBURG, July 8.—The *Herald* announces that the appointment of General Ignatieff as provisional Governor general of Nijnii Novgored is contemplated.

The Kent Hop Crop.

LONDON, July 8.—Advices from Kent state the hop crop threatens to be a more disastrous failure than for years past.

A Mystery Explained.

NEW YORK, July 8.—A bullet was found in the fence surrounding the Theological Seminary grounds yesterday which proved to be the same size as the one which killed Mr. Seymour and is regarded as an important clue. It is now believed that the latter's death was caused by a random bullet from the revolver of a student named Striecke, who is known to have fired several shots out of his window that night. Mr. Seymour's body lay exactly in a line between Striecke and the window and the bullet found in the fence.

Jim Keene's Movements.

CHICAGO, June 8.—The *Times* claims to have discovered that J. R. Keene has been in the city for the past week quietly directing the movements of his brokers on the board of trade, and that he left for New York in a private car last night.

The Mississippi River Commission.

WASHINGTON, July 8.—The President has signed the commissions of the members of the Mississippi River Commission.

A Burmese Insurrection.

SIMLA, July 8.—Serious disturbances have broken out below the town of Behamo, upper Burmah.

Failure of a Cotton Spinning Firm.

LONDON, July 8.—Ogle & Pickard, cotton spinners of Burnley, have failed; liabilities £25,000.

THE Y. M. C. A.

Gratifying Progress of the Greensboro Association.

Correspondence of the News.

GREENSBORO, July 8.—Much interest is manifested in the Y. M. C. A. of Greensboro, in large attendance on the Sabbath afternoon prayer meetings, and often a word of cheer is spoken by strangers and others, and an hour there is well spent.

This association working for and with young men is doing some missionary work, holding occasional meetings in and about the suburbs, stated meetings at the poor house and the county jail, and for the first time, yesterday, with the prisoners and guards of the stockade of the Fayetteville & Yadkin Valley railroad. Some two dozen of us went, and while there arranged with them for regular Sabbath afternoon meetings, and also to organize at next meeting a Sabbath school. We find twenty-four of the number now here can read, and many of them sing well and join freely in this worship and openly expressed thanks for our presence. I learn some forty more are to be added this week, making in all about a hundred. So the field of usefulness is widening before us, and will greatly increase the interest already felt in us by the community who have so nobly helped us in the past, and who are so well aware of the vast good already accomplished by the influence of this association and the boundless good ye in store and to develop.

The reports brought back by our delegates from the State Association are really gratifying, and is an omen of much good; and truly if these reports be true of what has been done in so short a time (and we have no reason to doubt), then what can we and will we do in the years to come, especially if we will join heart and hand in the work of temperance reform, which two things are but stepping-stones to all the churches of the land, wherever inaugurated. A real trial of either in a neighborhood is a sure proof of it. What has the temperance reform and prohibition done in old Guilford to bear out this assertion? Any one anxious to know, may inquire of any township in the county that has voted prohibition or had a Good Templar lodge in it, to know the results, and this written from his own knowledge can give numbers of names, brought from the gutter, and whose feet are sure upon the firm rock now Jesus Christ. Many people do not prize the labors of the little bands of Good Templars dotted here and there over the State as they should, toiling day and night under all sorts of disadvantages for the good of their sons. But in old Guilford we have helped to keep the spark of temperance burning, and we now see the labors of our own hands blessed in the increased sober habits of our people, and so we work and toil. On the 9th and 10th we have a District Convention and on the 10th a County Convention of Templars at High Point to further on the good work. Will not all the editors in the State help us? Your example is terrible for us or against us, and now that there is such an awakening on this great reform, we ask your word and space to help us out.

Our noble ladies are practising for a concert and tableaux next week for the benefit of the Young Men's Christian Association.

July Joinings.

Tarboro Southerner.

The rapid approach of dog days, the rise in flour, or some other untoward cause appear to have reduced the number of nubitalities. We are loth to think our Muse had anything to do with the matter. Here is the meager crop. The courtings are altogether out of proportion to the marryings.

Married in Seaboard, on Thursday night, June 10, 1978, by Rev. J. Q. Rhodes, Mr. W. F. Grubbs, formerly of Oxford, N. C., to Miss Laura Joyner, of Seaboard.

The silken cord that binds the twain,
In loving links across life's main—
May it ne'er be snapped asunder,
And may they not wish to get from under.

In Greenville, on Wednesday, 25th day of June, by Rev. Thomas Garrick, Mr. Joseph A. Williams to Miss Maggie L. Doughty.

Mr. Joseph A. and Maggie L.,
Many friends wish you well.
May love tone down life's rough hills—
May you not have more than little ills.

Fattening Brides.

Throughout the Empire of Morocco there are villages where the elder members of the adult population follow professionally the pursuit of fattening young ladies for the matrimonial market of Barbary. The Moors, like the Turks and most other Orientals, give a decided preference to "moonfaced" wives over lean ones, and are more solicitous as to the number of pounds which their brides weigh than about the stock of accomplishments which they possess. A girl is put under the process of fattening when she is about twelve years of age. Her hands are tied behind her, and she is seated on a carpet during so many hours every day, while her papa stands over her with a *mairague*, or big stick, and her mother at times pops into her mouth a ball of *couscousson*, or stiff-made porridge, kneaded up with grease, and just large enough to be swallowed without the patient choking. If the unfortunate girl declines to be crammed she is compelled, so that ere long the poor girl resigns herself to the torture, and gulps down the boluses lest she should be beaten.

Ah, now the maiden fair and gay
Walks down the shore in dreams of bliss,
And lets the cool breeze fan her brow
The while she sentimental listens to the sad, sad, very sad waves.

Sorrows gather around great souls as storms do around mountains; but like them, they break the storm and purify the air of the plain beneath them.—*Jean Paul.*

YEARS OF FRAUD.

A STARTLING EXPOSURE OF CORRUPTION IN THE TREASURY.

Gigantic Frauds Unearthed by the Committee—Millions of the Public Funds Stolen and Squandered.

The New York *Star* prints a document which deserves the thoughtful consideration of every citizen, no matter what may be his political predilections. It is the report of the Congressional Committee of which Hon. J. M. Glover was Chairman, which committee was empowered to investigate the affairs of the Treasury Department and its numerous ramifications, including the Secret Service and the Printing and Engraving Bureaus. Republican influence of the strongest character has been brought to bear on the members of the committee and upon Congress itself to prevent publicity being given to the history of the shameless mismanagement of the national finances which the committee discovered. The result was that notwithstanding Democratic activity the report of the committee was suppressed in Congress, and every effort to bring it to light has met with the most violent partisan opposition up to the present time.

The record of infamy and corruption in the National Treasury and its various bureaus, under the management of John Sherman and his immediate predecessors, is a startling one, and has been fully laid bare by the committee. Millions upon millions of dollars of the people's money have been squandered and stolen; the Department has been made a tool for most infamous purposds; secret issues of money have been made to carry elections for the Republicans; all avenues that might lead to exposure have been closed, and honest, conscientious officials dismissed; the Southern people have been shamelessly plundered by Sherman's Treasury Ring; the mints have been a mine for official thieves, speculators and defaulters, and the country has been flooded with counterfeit paper whenever such a course served the purposes of the Ring and its dependents. The report, moreover, shows that there is absolutely no check or safeguard against the perpetration or repetition of the greatest frauds in the national finances under Sherman's management, and closes with recommendations which cannot but be deemed necessary under the circumstances.

The report in substance is as follows:

The document opens by stating that Rule 103 of the House, adopted during Madison's Administration, directs this committee to inquire and report whether the expenditures of the Treasury Department are justified by law; whether the claims satisfied are supported by vouchers establishing their justness; whether the moneys disbursed have been so paid in accordance with appropriation laws, and whether any and what provisions are necessary to provide more perfectly for the proper application of the public moneys, and to secure the Government from demands unjust in character or extravagant in amount; to report from time to time whether any and what retrenchment can be made in the expenditure of the Department without detriment to the public service; whether any and what abuses exist in the failure to enforce the payment of moneys due the United States from public defaulters or others; whether any offices in the Department have become useless or unnecessary; and to report on the expediency of modifying or abolishing such offices. Under this rule little was done for a long time, and when Mr. Glover was placed at the head of the committee in 1877 the gathered wrongs of years had to be inquired into. The committee had been habitually packed by Speakers Colfax and Blaine with do-nothings. January 11, 1878, the House instructed the committee to proceed with its duties (which it had sometime before begun), and empowered it to send for persons and papers (compel attendance of witnesses and production of documents needed as evidence and to pay the attendant expense), and to examine all the affairs of the Treasury for such period as the committee might deem necessary for its own guidance or the protection of the public interests and the exposing of any frauds or abuses. The necessary authority to pay a clerk and experts was, however, by the intrigues of interested parties delayed till March 7th, when the session was more than half gone. Nevertheless, the work was pushed as fast and far as circumstances would allow.

The Treasury at Washington contains over thirty bureaus and divisions equivalent to bureaus, charged with important functions and the oversight of more than 12,000 employees. The scope of its powers extends from New Brunswick to California, from the Mexican Gulf to the Polar Ocean, and those powers are in their exercise often despotic to a degree that admits of the suppression of proof of official misconduct. Beside these thirty odd Bureaus at Washington the Treasury Department contains sub-treasuries at Baltimore, Boston, Chicago, Cincinnati, New Orleans, New York, Philadelphia, San Francisco and St. Louis. It also contains mints at Philadelphia, San Francisco, Carson, Denver and New Orleans; assay offices at Boise, Charlotte, Helena and New York; a chain of custom houses and customs offices stretching across the continent from Eastport, Me., along the frontiers of New Brunswick, Canada, Lakes Ontario, Erie, Huron and Superior, the frontiers of Manitoba and British Columbia, to Port Townsend on Puget Sound, Washington Territory, thence northward along the Pacific Coast to the Asiatic Sea, southward to the boundary of Lower California, eastward and southward along the frontier of Mexico, eastward along the shores of the Gulf, southward to Key West, and thence northeast along the Atlantic Coast to Maine, with an organization embracing also the interior States of Illinois, Indiana, Iowa, Kentucky, Missouri, Nebraska, Ohio, Pennsylvania, Tennessee, Vermont and West Virginia, with the Navy and special "revenue marine" fleet of thirty-seven vessels to enforce the Customs laws—the Treasury having charge of building, equipment, repair, purchase and sale of these revenue vessels, and of the examination, admission and government of cadets therein—a network of assessors, collectors and other Internal Revenue officials reaching over the whole country with the United States Army and the Federal Courts to uphold them; the construction, illumination, inspection and superintendence of 660 lighthouses, and of the light vessels, beacons, buoys, sea marks, fog signals and of the arrangements for saving lives during shipwrecks along the entire coast and on many rivers; the inspection of steamboats and boilers on every coast, river and lake in the United States, including 4,000 vessels, and examining and licensing 14,000 pilots, engineers, etc.; hospitals and physicians for 18,000 sick or disabled seamen, located at New York, San Francisco, Baltimore, New Orleans, Louisville, Boston, Chicago, Mobile, Detroit, Key West, Portland, Me.; Pittsburg, Norfolk, Philadelphia, St. Louis, Cincinnati, Galveston, Cairo, Savannah, Washington, Evansville, Cleveland, Milwaukee, Binghamton and New Berne; the United States Coast Survey, whose operations extend over the interior and along the northern lakes; the supervision of the seal fisheries and other matters in Alaska; the registration, enrollment, documenting and mortgaging of 25,000 American vessels, the entry and clearance of 31,000 vessels yearly from and for foreign countries, and the admeasurement and tonnage of all these, twenty special agents engaged in the detection of smuggling and frauds, a "Secret Service," employing many persons professedly in detection of counterfeiting. The Treasury is charged with the custody of funds held in trust by the Government for Indian tribes; with the organization, supervision winding up of 2,000 national banks; the publication of charts of the "Coast Pilot;" the custody and manufacture of standard weights and measures; the engraving, printing, issue, redemption destruction and entire management of over $2,000,000,000 of public debt and and $7,000,000,000 of paper currency; the coinage of 80,000,000 gold an i silver dollars yearly, the construction and custody of nearly all public buildings, the preparation of the statistics of commerce and navigation; the collection of hundreds of millions of customs and internal revenue yearly from the people, the final scrutity and settlement of all the expenditures of the Federal Government, and the keeping of the Government's accounts. Since 1861 over $13,000,000,000 have passed through the Treasury's hands.

In 1877 the "Graves Committee," appointed by Secretary Sherman to examine the Bureau of Engraving and Printing, reported that in the Treasury Department especially the efficiency of thes upervision of its chief authorities is greatly impaired by the vastness of the field which its administration covers. In 1874 the Committee of Ways and Means reported to the House, in connection with the Sanborn case, that the responsibility for official acts is very loose and easily evaded, subordinates being able to to control matters supposed to be decided by superiors. Secretary Boutwell reported in 1869 regarding a single branch of the Department that, "It is impossible for the Secretary of the Treasury to give to the various questions that arise in the management of the system the attention which is essential to the service."

SINECURES BY THE HUNDRED.

In the Bureau of Engraving and Printing it was found that shortly before last year's election nearly 300 needless employes were put on the pay-rolls. Instead of the Bureau costing about $150,000 is the fiscal year, 1878, as has been publicly represented, it really cost the Government in various ways over $800,000, thus:

"Aggregate expense of operating the Bureau" (Chief's report)	$538,861 33
Paper used	182,926 31
Material and stores, diminution of stock	31,950 15
Working Macerator	3,000 00
Rent made necessary	7,800 00
Site for new building	27,536 00
Interest on value of machinery and tools	15,229 89
Interest on value of dies and rolls	11,193 47
Interest on value of plates	3,937 93
Interest on value of material and stores carried	2,036 90
Interest on value of paper carried	6,000 00
Interest on cost of unfinished securities carried	2,056 52
Approximate "aggregate cost"	$832,528 50

About a million and a quarter of public money is permanently invested in the Bureau, thus:

Distinctive paper on hand May 1, 1877	$300,000 00
Space occupied in Treasury building	216,666 66
Machinery and tools	253,851 52
Stores	105,947 55
Dies and rolls	186,557.85
Engraved steel plates	65,632 23
Machine shop and site	50,000 00
Unfinished notes, bonds and stamps carried and on hand	65,678 17
Approximate investment	$1,244,333 98

$27,000,000 WASTED AND STOLEN.

Wherever approximate figures are given in this report they are below rather than above the truth. The cost of the Bureau for the sixteen years of its existence is so mixed in the Treasury accounts with other matters that it could not be precisely ascertained without the labor of a number of competent clerks for many months. According to the best attainable information at least $27,000,000 have been spent on it, much of which has been wasted or stolen. The report gives a list of expenditures which are officially shown or admitted to be needless or fraudulent, as follows:

1863–5, dry printing,	$ 300,000
1863–78, rent, needless,	200,000
1869–76, waterproofing,	266,500
1869–73, needless employees, excessive wages,	1,360,000
1873–7, needless employees, excessive wages,	1,700,000
1869–77, excessive prices for seal red ink,	120,000
1874, excessive prices for printing fractional currency,	90,000
1869–77, re-examination of paper,	600,000
1869–78, excessive prices of paper,	200,000
1871–77, useless purchase of paper,	60,000
Needless engraving,	19,000
1876–7, unfinished fractional currency destroyed,	350,000
1875–6, needless printing on fractional currency,	131,662
1878, site for new building,	27,536

This, the report states, is by no means the whole loss, but simply what could be ascertained in the time at command. The amount overdrawn and wasted in 1878 is ascertained from the figures furnished by the Chief of the Bureau to the committee, and from the bills rendered by and paid to the Bureau for work for other bureaus, at these totals:

Drawn from Treasury for work on	Real cost.	Overdrafts.
Legal tenders	$225,111.62	$101,809.83	$123,211.79
National B'k notes,	130,827.33	112,956.83	18,770.50
Bonds (consols)	70,542.10	36,449.90	40,092.30
	$426,480.05	$244,406.56	$182,074 59
Add new building site,	27,536.00	9,374.00	18,162.00
Total,	$554,016.05	$.53,780.56	$200,236.59

[CONTINUED TO-MORROW.]

Marriage Highly Colored.

Tarboro Southerner.

The best circles of Tarboro colored society were shaken by the marriage of E. D. Green, of Wilmington, to Miss Georgiana Cherry, on Tuesday morning. Right Rev. J. W. Hood, Bishop in Zion's A. M. E. Church performed the ceremony in St. Paul's chapel, the colored Methodist church in this place. The bride is very pretty, nearly white and worth four thousand dollars in money. The groom, who could pass anywhere for white, is said to be worth valuable property in Wilmington. The pair left on the train the same morning for the North.

Blessed are they who live above the world while they are living in it, anticipating heaven by receiving its spirit before they breathe its air.

FORGING THE LINKS.

A RAILROAD "FOURTH" ON THE SUMMIT OF THE BLUE RIDGE.

Utilizing the National Birthday to Complete the Railroad Links from the West to the Atlantic.

Condensed from the Charleston News and Courier.

I noticed many gallant men who charged with Lane and Scales, who rode with Ransom, who aided in upholding the martial renown of North Carolina during the war. Long before the time for the arrival of the train from Charlotte and the special train from Spartanburg hundreds wended their way to the depot to welcome Governor Jarvis and the other distinguished guests. As the train approached a cannon was fired several times, while cheer upon cheer arose from lusty throats. Mr. H. G. Ewart, the popular mayor of Hendersonville, delivered a brief but really eloquent and well timed address, which was replied to by Col. R. Y. McAden in felicitous language, after which a procession of citizens was formed, headed by Senator T. W. Taylor, and to the music of the town band, and beneath the folds of a large American flag, they marched to an oak grove near the depot, where the barbecued meats and other viands were ready on a number of large tables. The order to attack was given, by the way, and was obeyed in a quiet and orderly manner. Shoats and sheep disappeared as rapidly as they did near camp during the war, although not as mysteriously. Next came the feast of reason. Col. McAden welcomed the visitors and Senator Taylor introduced the speakers.

GEN. T. L. CLINGMAN

was the first to address the audience. He, with characteristic gallantry, complimented the ladies; alluded to the patience of Jacob and the time he had to wait; said that it took six times as long to get a railroad to Hendersonville; spoke of the great effort of the gifted R. Y. Hayne, in the interest of the road to the West in 1836; told of fine climate, scenery, local advantages; its importance in a national view; that it will yet make Charleston a great city, the emporium for commerce. He closed his remarks by alluding to Governor Jarvis of North Carolina, who was a gallant but devoted officer of his brigade during the war.

GOVERNOR JARVIS

spoke of the Day we Celebrate and the proud memory it awakens. He wished to see the iron horse steam from Hendersonville to Nashville; hoped that the other States would interest themselves. As far as North Carolina was concerned her course is onward. South Carolina, Tennessee and North Carolina are all deeply interested. Even Virginia has an interest. Welcome, thrice welcome, to North Carolina, representatives of our Southern sisters. He told with tenderness of the gloom and darkness that enveloped the States of the South for several years subsequent to the war. While we treasure the memories of the cause for which our men fought and died, the cause of the railroad is also dear to us all. He paid a beautiful tribute to Governor Simpson and the Palmetto State. The band then played "The Star Spangled Banner."

GOVERNOR SIMPSON

commenced his address with a graceful allusion to the blue sky, balmy and invigorating air, sturdy people and boundless hospitality of Hendersonville. This is a glad occasion, a proud event, one which inspires the loftiest thought and awakens the most intense enthusiasm. He told of the valor of North Carolinians; the 20th of May, the anniversary of the Mecklenburg Declaration of Independence of the 28th of June, on which day Moultrie and his brave band behind a fort of palmetto logs routed the British fleet; the 22d of February, the birthday of the immortal Washington, who was left childless that a nation might call him father. He spoke of the agricultural, mechanical and commercial arts; the first produces the raw material, the second fits them for the use of man, the last distributes them; all are equally important; one could not exist without the other. He made favorable mention of the vast resources of the three States. The audience was delighted with Governor Simpson's eloquent and beautiful illustrations as he spoke of America being our common country, her flag our flag, her government our government.

EX-GOVERNOR SENTER,

of Tennessee, delivered the most forcible, practical, and at the same time eloquent speech. In alluding to the importance of completing the road, he said that he had come a distance of nearly six hundred miles to reach a place a little more than eighty miles distant. We want Tennessee and North Carolina united by bands of iron; we want to feel the grip of the iron rails. Tennessee once belonged to North Carolina, and we want you to take us back. Then you tap the great Northwest, the granaries of the West. He stated that the soldiers of both sections acted well; they bear no malice toward each other. There are memories which we would not forget. Scars cannot be eradicated; the oak of the forest heals its wounds by time. No agency is better to bind us to the Northwest than bands of steel. They will scatter blessings over both sections.

JUDGE D. G. FOWLE,

of North Carolina, was introduced, a silver-tongued orator, and the expectation of those present were more than realized. He alluded to the patriotism of the South and how Southerners loved their home, mentioned the legend concerning Harold at the battle of Hastings, who had two names on his breast—Edith, England, wife and country. The South has resumed her place among her Northern sisters. Vance and Ransom, Hampton and Butler dignify and adorn the Senate of the United States. Our feet again keep time to the music of the Union; her flag floats above us, the symbol of liberty and constitutional government—a union of hearts, of hands, of States. We have fertile valleys—water-power. There is an oft quoted saying, "See Venice and die." He would say, see Hendersonville and live. This town was named after Judge Henderson, and the air here is as pure as his character. R. Y. McAden may go to his home tonight and sleep contented.

THE HON. J. M. LEACH,

who it will be remembered aided in the redemption of South Carolina, spoke next. His speech abounded in anecdote. He closed with an earnest appeal to push on the good work.

COL. R. Y. M'ADEN

was introduced and warmly received. He said that the people of the mountains rejoiced. Duncan and Coleman have accomplished more than what has been done in half a century. He appealed to Charleston, the lovely Southern Queen whose crown is studded with the richest gems, and whose history challenges the admiration of the world. She will yet be the emporium of the world, Tennessee is ready to clasp hands with South Carolina.

Nat. H. Busbee, a most promising young lawyer of Raleigh and a gallant ex-Confederate, made a telling speech, which was candid, truthful and sublime.

25. *Kidder vs. McIlheuny*, from Brunswick.

Where an action is brought on a note admittedly given in final settlement of a partnership account, the contract of partnership is immaterial evidence and its rejection is no ground of exception. Where a party has opportunity to propose further and other issues, which he fails or refuses to do, he can not be heard to complain of the consequences of his own neglect and this court will not order additional issues now to be submitted. Where a new note is given, and the jury find that it was given, in renewal of a note secured by mortgage, such security attaches to the new note. C. C. BY SMITH, C. J.

26. *Clifton vs Wynn*, from Franklin.

The General Assembly by an act ratified Feb. 14, 1879, repealed the taxation of attorney's fees in all bills of costs. *Held*, the fiction that all the acts of a court relate to the first day of the term will not be allowed to apply so as to allow attorney's fees to be taxed in all cases decided at the Spring term of the Supreme Court, such term beginning before the ratification of the Act but closing afterwards. On the contrary, the rule, that all matters are *in fieri* until the court adjourns, and applies the prohibition of taxing such allowances in the bills of costs reaches those cases at said term in which opinions had been filed before the ratification of the act as well as those in which opinions had not been filed.

BY SMITH, C. J.:

27. *Albertson vs. Wallace*, from Duplin.

The tax imposed by secs. 10 and 12, schedule B, ch. 159, Laws 1876-77 (Revenue act), on dealers in spirituous liquors of 5 per cent. on the amount of purchases, in addition to the *ad valorem* tax, is not a duplication of the tax and is not obnoxious to sec. 3, art. 5, of the Constitution. Such tax of 5 per cent. on the amount of purchases is not a tax upon *property* but upon the *trade or occupation* and the amount of the tax is thus measured by the extent of the business. The exemption in sec. 12, of purchases made from those who have already paid the tax on their business, does not extend to sec 10, so as to include spirituous dealers, with the exemption in this respect allowed dealers in other merchandise. The discrimination made in favor of purchases from wholesale dealers resident in the State who have paid the tax, and against non-residents who have not, by levying a tax of thirty cents, conflicts with the Constitution of the United States, and on the authority of *Welton vs. Missouri*, 91 *U. S.* 275, the previous decision of this Court in *Davis vs. Dashiel, Phil* 114 is overruled.

BY ASHE, J.

28. *State vs. Swepson*, from Franklin.

A cause must be at issue before an order of removal to another county can be made. When the defendant pleads "former acquittal" and "not guilty" *ore tenus* the cause is at issue upon both these pleas. A general replication to each of these pleas is implied, and if the replication is not as a matter of fact actually entered, it is not error and is immaterial. A cause removed in that condition is properly and sufficiently constituted in the county to which it is removed, and the judge of that court has no power *ex mero motu* to remand it to the county whence it was removed. The judge at the trial unquestionably had power to allow additional special replications to be filed. Upon an allegation that a replication was made in the county from which the cause was removed, the proper curse is not to remand the cause, but by a motion to amend made in the court from which the cause was removed, a suggestion of a diminution of the record in the court to which the cause is removed and a *certiorari*.

BY DILLARD, J.:

29. *Wright vs. Hemphill*, from Guilford.

In civil actions it is the practice, for the judge on retiring from the bench, by consent of the parties, to direct the clerk to receive the verdict of the jury, then out considering their verdict, and on his return, it is competent to the judge, if the jury have failed to respond to any of the issues, the jury being present in court and no suggestion being made of tampering or other influence, to order them to retire and complete their verdict, in the same manner as if the incomplete verdict had been rendered in open court.

The Corn and the Lilies.

Emily A. Braddock in Sunday Afternoon.

Said the Corn to the Lilies:
"Press not near my feet,
You are only idlers,
Neither corn nor wheat,
Does one earn their living
Just by being sweet?"

Naught answered the Lilies,
Neither yea or nay,
Only they grew sweeter
All the livelong day,
And at last the Teacher
Chanced to come that way.

While His tired disciples
Rested at His feet,
And the proud Corn rustled,
Bidding them to eat,
"Children," said the Teacher,
"The life is more than meat.

"Consider the Lilies,
How beautiful they grow?
Never king had such glory,
Yet no toil they know."
O, happy were the Lilies
That He loved them so.

City Board of Underwriters.

The annual meeting of the Local Board of Underwriters of this city took place yesterday. The following officers were unanimously re-elected to serve for the ensuing year:

Colonel F. H. Cameron, President.
W. H. Crow, Vice-President.
Captain A. M. Lawrence, Secretary and Treasurer.

This Board is said to be one of the best and most conservative boards in the country. It is composed entirely of men who have had long and valuable experience in fire underwriting, and, representing as they do, a large number of the oldest and most substantial companies in this country and Europe, exercise a faithful and profitable guardianship over the interests committed to their charge.

OUR NEWS BUDGET.

THE CREAM OF LAST NIGHT'S MAIL BAGS.

The Next Presidency—Sherman and Blaine Against Grant—Chandler on Civil Service.

THE PRESIDENTIAL CAMPAIGN.

WASHINGTON, July 7.—Within a day or two several local politicians from Ohio, well versed in the art of manipulating conventions, have arrived here to consult Secretary Sherman regarding the latter's candidacy for the next Republican nomination for the presidency. Some of these gentlemen assert that the Sherman movement is to be worked up systematically in the Western and Northern States, beginning with Ohio, and it has already taken deep root in States where the feeling for the nomination of General Grant has been the strongest. It is claimed that Ohio will lead the column with a solid delegation in the next Republican convention in favor of Sherman. It is the theory of those most active in Secretary Sherman's behalf that the minute the fact is developed that General Grant cannot obtain the nomination without a severe struggle, that Mr. Sherman will step to the fore as the leading candidate, and that the contest for the nomination will be between him and Senator Blaine. Whether these politicians are correct or not in their calculations they are entering upon the canvass in behalf of Mr. Sherman with an energy which creates alarm among the adherents of General Grant and Mr. Blaire.

CONTEMPT FOR REGULATIONS.

Senator Zack. Chandler, chairman National Republican Committee, in reply to a recent inquiry whether or not the civil service rule laid down by the President soon after his occupancy of the White House, that no Federal official should continue to act as a member of the National Committee, had embarrassed the committee in any way, said it had not. The national committee had never paid the slightest attention to the President's action in this matter, and did not intend to in the future.

DEATH OF REV. DR. CLARK.

A dispatch from Atlanta, Ga., announces the death, at the residence of Governor Colquitt, in that city, Sunday evening last, of Rev. Dr. Alexander Clark, editor of the *Methodist Recorder*, Pittsburg, Pa. Dr. Clark went to North Carolina to deliver an address at a college commencement, and on his way back visited Atlanta. Here he was taken sick, and had been ill for several weeks. He was a brilliant writer, an eloquent preacher, and the author of several books which have had extensive circulation.

THE OHIO OUTLOOK.

Gen. Ewing passed through the city last night. In a brief interview with the *Post* in regard to the Ohio prospect he said:

"The outlook is good; excellent," he replied, "and they can't beat us unless they flood the State with money. Indeed, I don't believe they can do it even with their money."

"How does the Greenback vote stand?"

"Piatt will get one-third of it; he may get half, but we will get the other half.

"Will Piatt run the race through?"

"Oh, yes; he'll run through. Our party is united and are ready for hard work. We are determined, and I can say confident, for we feel that the tide is in our favor."

"When will the campaign open?"

"About the middle of August, but I am to make a speech at Lancaster on the 24th inst., and from that date I shall speak wherever I am wanted."

The Swepson Case.

The case of the State *vs.* George W. Swepson, in the matter of a few million bonds, is again before the public. It will be remembered that this *cause celebre* was removed from Wake county last January to Franklin on affidavit that the State could not get a fair trial in this county. At the last term of Franklin court, Judge Buxton presiding, on objection raised by defendant's counsel that the case was not at issue, it was remanded to Wake county. An appeal from this ruling was denied the State when application was made to the Supreme Court for *certiorari*.

Monday the Supreme Court reversed, Judge Buxton deciding that the case was properly at issue in Franklin. Yesterday application was made to Judge Eure for bail. The original bail fixed by Judge Strong was $5,000. When the case was remanded to Wake, on his motion Judge Buxton raised the bail to $10,000. The bail was given with R. Y. McAden as surety.

The bond given yesterday with W. F. Askew, as surety, was not satisfactory to the State, and upon application Judge Eure directed the States counsel to notify the defendant's counsel that the bond must be made satisfactory. This will doubtless be done at once and the case will stand for trial at the next term of Franklin Court.

THE NEGRO IN KANSAS.

The politicians who are engaged in trying to whoop up the exodus and cram the Southern negroes into Kansas should have consulted the Kansas people on the subject before commencing their peculiar "Christian work." A correspondent of the Brooklyn *Eagle* at Topeka, the Capital of Kansas, says:

"Refugees in Kansas, the colored people, when they first arrive, are very destitute, many of them diseased, some of them very ragged, and most of them filthy. It must be borne in mind that the people of Kansas had no notice of the intended emigration of the colored people, and had they been consulted in the matter it never would have received any encouragement. It is useless to say anything in regard to the character of the negro; he has been a political scapegoat so long that it has become chronic with the people of the United States; but he is like the noble red man, his admirers are always among those who view him from a distance. Topeka is a beautiful city, with a population of 12,000, and the increase is at the rate of about 2,000 per year. New buildings are going up in every part of the city, among which are the United States court house and the west wing of the new Capitol building, each to cost not less than $300,000. Her schools are not excelled anywhere. Her society is as refined and intellectual as can be found in any Eastern city, and those who entertain the idea that the good citizens of Topeka encourage the immigration of the blacks are very much mistaken. It is a calamity to be submitted to with Christian forbearance. Our people will not consent that the relief extended shall be anything more than temporary. The Relief Committee proposes erecting barracks for their accommodation, and have selected ground on the north side of the Kansas river, in what is known as North Topeka, for the purpose. A few days ago they hauled lumber to the ground, and that night the citizens of North Topeka put the lumber into the river, and it is now on the way to Kansas City. Our people are opposed to anything that has a show of permanence of the Relief Association. Barracks here would engender pestilence and disease, and like a cancer mar the face of our beautiful city, and eat into the vitals of society. The negro race is clannish; they are never contented to live isolated, and the idea that they will take up Government land and live on it like the white man is a mistaken one. In time they will all be in the villages and cities, and they will never forget that in Topeka they were provided for without money and without price, and they will long to be back and back they will come. Their social natures call them together where they can attend church and other gatherings. They are not contented that this shall be one day in seven, but every night they will be found together, and they will not live, unles compelled to, where such can not be the case. The inquiry now is, "what is it best to do for our protection, without regard to politics or religion?"

That correspondent understands the negro. Those who expect him to settle out on the treeless prairie, where he will be isolated from his own race and from the white people, are greatly mistaken. One winter in Kansas will settle the exodus business with these people.

THE "NEWS."

The recent additions to our subscription list and the words of good cheer from every quarter tells a tale that pleases us—naturally.

The NEWS is the cheapest newspaper in the State, and a rather partial friend living in an obscure part of the State, in a letter received yesterday, says, "It is *the best* paper afloat." Several important State elections take place in the next three months: Kentucky, August 4th, State officers and Legislature; California, September 3d, State and judicial officers, four Congressmen and Legislature; Ohio and Iowa, October 7th, State officers in part and Legislature; Maryland, Massachusetts, Minnesota, Mississippi, New Jersey, New York, Pennsylvania, Virginia and Wisconsin, November 3d. Governors are elected in all the States named except Mississippi, New Jersey, Pennsylvania and Wisconsin.

The elections in California and Ohio are of national importance. Soon after these elections follows the re-convening of Congress and the opening of the Presidential campaign. The NEWS should be in the hands of every Democrat in the State. Republicans and others who do their own thinking can read the NEWS profitably. It is above and independent of cliques and politicians: PRINCIPLES, NOT MEN. The NEWS tries to discuss politics intelligently and fairly. It tries to criticise public men and their official acts impartially. It was never in better trim to fight the battles of the Democratic party. It has enlisted for the war.

A CRY of "wasting the public money" comes to us from the jungles of Africa. Col. Walter Clark has favored us with a late copy of the *African Times*, which contains a dolorous account of how the public money has been wasted in the purchase of a clock. After vehemently drubbing the administration for a reckless piece of extravagance the *Times* complains at the favoritism of the Government in employing "an incompetent and bashful" workman to put the clock in position. The *Times* indignantly says:

A matter of favour, an incompetent man, a car-painter, was appointed to attend to this valuable clock. A clock, for which the government has expended an exorbitant amount, to be spoiled by "incompetence" for 30s. per month! This is a sad defect. It is a crying shame that, instead of employing a proper man to do the work, it should be left to a novice, who, being ignorant and bashful to express his incapacity, keeps it always out of order—stopping, going fast, five to fifteen minutes or thereabout in every twenty-four hours If this be further continued, our '79 is becoming '80 very soon. The hour twelve strikes eleven diurnally; the six lights—viz., two on each dial—are used for illumination, never last the night through; they should be kept from 6 p. m. to 6 a. m. If such a clock is only set up as a monument, and not for public use, why should the finance be wasted by any subsequent payment whatever?

THE FIRST installment of ex-Congressman Glover's *expose* of the United States Treasury is published in the NEWS this morning. It will be followed by others of a still more startling character. The report will appear entire in the weekly edition of the NEWS and will prove to be the most interesting reading it has been the pleasure of the NEWS to present to its readers in a long while. It is no sensation. It is the result of hard work under the most embarrassing and perplexing difficulties. It lifts the roof off of that den of iniquity and corruption, the United States Treasury, for the first time in twenty years. The disclosures are necessarily startling—the most scandalous exhibit of jobbery and robbery ever presented to the American people.

CAPTAIN S. A. ASHE, of the law firm of Merrimon, Fuller & Ashe, of this city, has purchased the Raleigh *Observer* and is announced in yesterday's issue as editor. The NEWS welcomes Captain Ashe in the more congenial and fascinating field of journalism, and expresses a hearty good-wish for the *Observer*.

Jeff. Davis on the Fourth of July.

Jefferson Davis has written the following letter in reply to an invitation to deliver an address on the Fourth of July in Sioux City, Iowa:

"BEAUVOIR POST-OFFICE, }
HARRISON CO., MISS., June 18, 1879. }

C. M. Robinson, Esq.:

Dear Sir:—Yours of the 2d instant has been received, and I regret that it will not be in my power to accept the invitation so courteously tendered to me by you on the part of your fellow-citizens to unite with them in the celebration of the coming Fourth of July. It is gratifying to me to know that those who have peopled a country which I knew when it was only inhabited by Indians desire to have a visit from me, and to listen to such an address as I might make on a day associated with the declaration which made thirteen independent States of that number of subject colonies of Great Britain. I have often desired to see the country which I left as a wilderness, transformed by the labor and intelligence of civilized man into its present fruitful condition, but during the years of your progress, many to an individual, though few to a nation, time has worked with wasteful energy upon myself. I may, therefore, rather wish than expect to be able to realize the desire I have expressed to see again the land of Iowa. In any event I shall remain thankful to you and your fellow-citizens for the kind considerations expressed in your letter of invitation, and am respectfully and am truly yours, JEFFERSON DAVIS.

The New Rebellion. Triumphant.

Brooklyn Eagle.

Our highly and justly esteemed contemporary, the New York *Times*, is the only Republican organ in which we have discovered any editorial allusion to the appointment of Colonel W. H. Roberts "to codify the rules, regulations, laws and orders relating to the "army of the United States." This latest invasion of the strongholds of stalwartism by the Confederate Brigadiers is the most extensive and formidable that has yet been attempted, and is sufficient to arouse the intensest indignation of the entire Republican press. We can only account for the silence of the stalwart organs by the supposition that the extreme audacity of this movement on the part of the ex-rebels has astounded them to such a degree as to temporarily paralyze their utterance.

The Great Art of Teaching.

Philadelphia Record.

A discussion of a somewhat animated character has been in progress in New York for a short time concerning the "hard studying" of pupils in the Normal College. By some it is asserted that the physical and mental health of a number of young ladies has been destroyed by the severe course of study to which they are subjected, and others deny that any inquiry results from the course of training pursued in that institution. The agitation may result in benefit to the cause of education if it shall lead to an understanding of what is needed to effect a genuine reform in education. The pupils in normal schools are generally girls approaching womanhood, who desire to find employment as teachers; and if the same common-sense notions which prevail in business affairs were adopted in preparing them for their work something better might be accomplished. In all the departments of productive industry the division of labor is regarded as essential to its perfection, and in all the higher institutions of learning the work of teaching is divided among a number of professors and teachers, each one of whom has a particular department to attend to and is presumed to have the skill and knowledge needed to enable him to do his work efficiently. It is now acknowledged that the best talent, information and judgment should be engaged in teaching young children, for the beginning of education is the most important part of it. It is in early years that children, when well taught, learn most rapidly, and acquire the tastes and habits which make the subsequent part of their education easy and satisfactory. The work of a normal school, therefore, should be to cultivate the art of teaching. Those who enter it should have the preliminary education which gives general intelligence and a fair knowledge of the rudiments of the sciences, the arts and languages, and the attention of each one should be given to the branch of tuition for which her talents best fit her. Studying the lessons of text books should be no part of the course of preparation for the active duties of a teacher. The work should be practical. The one who has chosen the department of arithmetic should provide the illustrations which will convey every idea distinctly to the mind of the learner, and the teacher should make sure that it is completely comprehended. By thoroughly mastering one department of instruction, and adapting illustrations to the capacity of mind of every grade of natural intellect, the development of the power of young minds will be much more effectually promoted than it can be by repeating rules and definitions, no matter how accurate they may be in language.

The great art of teaching is in the ability to recognize the character and capacity of the mind of each learner; and to adapt the objects or representation of things in such manner as will make clear and distinct impressions. Young minds are always gratified when they receive new ideas; and learning is not disagreeable when the teacher gives satisfactory information to the pupils. One branch of instruction may be made much more entertaining when illustrated in a complete and pleasing manner than it is like to be if the teacher's attention is occupied with several; and nothing can be more absurd than the effort to teach all grades of intellect by the same process. We may say, therefore, that the work of a normal school should be the thorough practical study of juvenile human nature, and all efforts to push young persons through a comprehensive course, in order to make teachers of them, will prove a failure.

The sooner the officials who have charge of public instruction recognize the importance of engaging persons of mature and well-cultivated minds in every department of instruction, the better it will be for the community; and the impropriety of overburdening the minds of girls with book lesson in order to rush them into the responsible positions of teachers cannot be too soon abandoned. New York expends nearly four million dollars a year for public education, which is merely intellectual, and the morals of the people are not improved. In this there is waste, for the expenditure of so vast a sum should bring industrial and moral results of an undoubted character.

Talbott's Patent Spark Arrester,
THE INVENTION OF THE AGE.

Talbott's new Patent Spark Arrester is really the only perfect and reliable one, and is superseding all others in use. The great efficiency of this Arrester is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies. Its prominent features are:

It does not destroy the draft.

It does not interfere with cleaning the tubes.

It will not choke up, and requires no cleaning.

It requires no direct dampers to be opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape.)

It requires no water to extinguish sparks, which, by condensation, destroys the draft. Besides, when water is used, if neglected, the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy condition.

It is simple and durable, and can be relied upon.

It can be attached to any boiler.

No planter should be without one of them. Insurance companies will insure gins and barns where the Talbott Engines and Spark Arresters are used at same rate as charged for water or horse-power.

Fences to Mend.

When men the people freely pay
To do the people's public work,
Conclude that they will slip away,
And thus the public business shirk,
Then easily to private use
Their duties are required to bend,
And thus they phrase their last excuse:
Fences to mend! Fences to mend!

Too late it is to wonder why
The public cash for such we spend,
While they repay us with the cry:
Fences to mend! Fences to mend!

John Sherman first the phrase ensnared,
And many of us loudly laughed,
When to Ohio he repaired,
To fix his fence and shut out Taft,
When he had shown his mending sense,
He took a bigger job in hand,
The customs and the postal fence
To mend through all this mighty land.

Their lack of fence the Grant men spy,
No claim have they to either end,
While Sherman greets them with the cry:
Fences to mend! Fences to mend!

The men who thus their fences mend,
Either in country or in town,
Should closely to the job attend,
Before the people knock them down,
Wild cattle are our freeborn men,
Who fear no halter or corral;
If statesmen fence them out, why, then
They scatter statesmen, fence and all.

When selfish schemes their servants try,
Schemes that the public sense offend,
The people, too, are apt to cry:
Fences to mend! Fences to mend!

IMPART APPETITE.

DR. TUTT has succeeded in combining in these pills the heretofore antagonistic qualities of a STRENGTHING, PURGATIVE, and a PURIFYING TONIC.

Their first apparent effect is to increase the appetite by causing the food to properly assimilate. Thus the system is nourished, and by their tonic action on the digestive organs, regular and healthy evacuations are produced.

The rapidity with which PERSONS TAKE ON FLESH while under the influence of these pills, indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, melancholy, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and imparting health & strength to the system. BUFFALO LITHIA WATER,

As a General Remedial Agent in Chronic Diseases.

—o—

It is confidently claimed for these waters, and the claim though a strong one is substantiated by the testimony of many of the most eminent medical men of the country, both North and South, that in the following enumerated diseases: Affections of the Kidneys and Bladder, especially in Stone or Gravel, Dyspepsia, Rheumatic Gout, Rheumatism, Paralysis, Malarial Fevers in their chronic form, Dropsical Effusion, Uremia or Uremic Poison, Chronic Cutaneous Eruptions, and in the Functional Diseases peculiar to Women, more especially in al Disorders of the Menstrual Function. They have accomplished results as remarkable as were ever accomplished by any remedial agent whatsoever, whether in materia medica or among mineral waters. They are confidently recommended by some eminent medical men as a preventative of the disturbance and dangers incident to Pregnancy.

These waters, in cases of the dozen half gallon bottles, $5 per case at the Springs. Pamphlets sent to any address. Springs open for guests 1st day of June.

Sparkling Catawba Springs,

CATAWBA CO., N. C.

This desirable watering place will be open for select visitors 20th May, 1879. The Springs are situated near Hickory Station, on the Western North Carolina Railroad.

The bracing mountain atmosphere, with the health restoring properties of their waters, renders these Springs a most desirable resort for invalids and pleasure seekers.

The mineral waters embrace Blue and White Sulphur and Chalybeate. It is the best and most extensively fitted up watering place in the State, and can accommodate three hundred persons.

A good Band of Music will remain at the Springs during the season, and all the attractions afforded for amusements usually found at first-class watering places will be offered to visitors. A good supply of ice constantly on hand.

Conveyances will meet the trains daily at Hickory Station, to convey visitors to the Springs.

BOARD—$2 per day; $30 per month. Reduced rates for families. Invalids can have the advantage of four different mineral waters, warm and cold baths, Turkish, hot-air, vapor and medicated baths if desired.

LOUISIANA STATE LOTTERY.

MISS A. J. G.—Teachership wanted.

REV. DR. W. A. HARRIS—Wesleyan Female Institute.

F. P. HOBGOOD.—Raleigh Female Seminary.

YEARGAN, PETTY & JONES—Dress goods, &c. at cost.

LOCAL BRIEFS.

——Revenue receipts yesterday $3,051.97.

——D. G. W. Lawrence, of Hot Springs, Arkansas, has medical charge of the celebrated Hot Springs of North Carolina.

——Another bond-burning time by the State Treasurer. When they start fires in the Capitol with such material no wonder the people complain of heat.

——The regular meeting of St. John's Guild will be held in the reading room this (Wednesday) evening at 8½ o'clock. A full meeting is desired to consider urgent business.

——The NEWS regrets to learn that the genial and gentlemanly Captain Henry T. Coley, of the N. C. R. R., is quite seriously sick at his home in Charlotte.

——The grounds in the rear of the United States courthouse are being worked with a view to put them in such shape as will prove an ornament to the city. A macademized road bed is being constructed from gate to gate, and the plows were put in operation yesterday morning preparatory to seeding with grass.

——Prices rule in the market as follows: Tomatoes, 20c@40; corn, 15c@20; apples, 10c per dozen, 25c@40 per peck; cucumbers, 15c@20 per dozen; peaches, 10c per dozen, 75c per peck; Irish potatoes, 20c per peck; eggs, 15c per dozen; berries, 5c per quart; canteloupes, 10c.; watermelons, 25c@30; fresh fish, 25c per bunch.

Sale of Real Estate.

There was sold at the courthouse in Warrenton on Monday a plantation, comprising 3,300 acres, formerly owned by Peter Davis, for the sum of $19,050. The purchaser was Colonel A. W. Shaffer, of this city.

Complete Sets of N. C. Reports

Can be furnished by Alfred Williams & Co., Booksellers, Raleigh. And any Lawyer who may have sets lacking some of the volumes of the Reports and desiring to obtain them, wouldde well to correspond with Messrs. A. Williams & Co., mentioning the volumes wanted.

Raleigh Female Seminary.

We invite the attention of our readers to the advertisement of this school found in another column. The school is too well known to need any commendation from us. The price of board including fuel, lights and washing has been reduced to $12.00 per month. Write for catalogue.

Supreme Court.

Court opened at 10 o'clock yesterday morning, all the Justices present.

Scraup Edgerton *vs.* George W Logan, from Rutherford, was called and argued by A S Merrimon and W J Montgomery for the plaintiff, and E G Reade for the defendant.

Pending the argument in this case the court adjourned until to-day at 10 o'clock.

Basket Picnic.

Preparations have been made for a basket picnic to be held at Holly Springs on Friday, July 18th. Addresses are to be delivered by the Rev. Dr. Pritchard and B. F. Montague, Esq., of this city. The managers are Messrs. M. A. Jones, C. J. Hunter and W. J. Rogers, and Misses Alice Beckwith, Lou Norris and Anna Hunter.

The New Through Line.

The Rev. Dr. E. H. Harding, General John A. Young, Mr. George Wilson and quite a large party from Charlotte, N. C., passed through our city on yesterday on a northern trip. They came via Hamlet, took the sleeper at Charlotte, and report having had a most delightful trip, and spoke in the highest terms of the new route, which is daily growing more popular.

St. Mary's Muse.

Previous mention has been made in the NEWS of this periodical emanating from the Pierian Club of St. Mary's School. It is neatly gotten up, and the matter original and selected, is descriptive of woman's deeds and her abilities. The original articles are extremely well written both in French and English while there are translations from the German that form a novel feature in this school magazine. The terms of subscription are fifty cents per annum, single numbers ten cents. The June number can be obtained *gratis* at the bookstore of Alfred Williams & Company.

The Day of Big Things.

The Agricultural Department is in receipt of some tall oats, five feet high, well headed and filled, raised by that model farmer, Thos. H. Long, Northampton county.

Also a large bundle of rye, orchard grass and clover averaging 5 feet 10 inches, raised by Mr. Azariah Graves, one of Caswell's best farmers.

Also some five feet clover raised in Nash county by Mr. T. P. Braswell. Think of clover in Nash county attaining such a marvelous growth.

Mecklenburg county is represented by some fine timothy 5 feet 9 inches, raised by one of her most successful and enterprising farmers, Mr. J. W. Wadsworth.

The Connecticut Mutual Life Insurance Company.

For thirty-three years, has steadily pursued its course. It affords its members, by the old-time maxims of economy, integrity and prudence, insurance at the lowest cost. Ratio of expenses to income has been less than any other company, in 1878 only 6.57 per cent. It offers to all who want to protect their dependents, a policy whose claims by death will be honored, or at whose lapse, for any reason, a stipulated paid-up policy can be obtained. In about ten years it has disbursed to forty-seven families in North Carolina, the sum of $188,881.00, and not a loss has been contested, but each promptly paid. This Company does not seek patronage by specious plans. Experience has shown that the most advantageous forms of policy are life, by annual or limited premiums, and long term endorsements. Please send or call for full statement, with table of rates, &c. Office four doors south of "Yarboro House."

Take Town Talk

and sift it down and generally it don't amount to much; but the Town Talk at Grausman's store is really worth inquiring into.

How Are We To Know.

Dealers say how are we to know that Dr. Price's Cream Baking Powder is unsophisticated? Know it, because it always gives satisfaction, and other kinds are bought at a price so low that it points at once to adulteration. If consumers knew the character of cheap baking powders, very few would use them. 2t

Unheard of Bargains!

Who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
Will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids you all adieu
And wishes a happy new year too,
And not forget

You can now stop at the Grand Central Hotel, on Broadway, New York, the American plan for $2.50, or $3.00 per day; or you can, on the European plan, take your breakfast there, in the morning, take your lunch down town, or dine with a friend, and your room at the Hotel will only cost you $1.00 per day, and upward, and meals are also provided, at moderate prices, at the elegant Restaurant attached to the Hotel.

For Congress.—The fame of the average Congressman is of such short lived duration that it seems hardly worth while now to pay $20,000 for an election. Who wants the nomination in our district? for there is nothing equal to Henry's Carbolic Salve for the cure of all sores, wounds, cuts and skin diseases. Beware of counterfeits.

No better test of the civilization of a people can be found than in their hotels. Measured by this standard, such a hotel, for example, as the "St. Nicholas," New York, is fully worth its magnificent reputation as one of the great capitals of the world. The "St. Nicholas" hotel has been known for a quarter of a century as one of the superb establishment of the world. Its table, apartments, and general conveniences are now, as ever, unsurpassed. Rates have been cut down to *ante-bellum* prices.

Every reader of this paper can have free one month's subscription to our illustrated Magazine of choice literature, "Leisure Hours, by sending eleven cents to pay for mailing the premium that goes with the magazine, viz.: a pair of Easter Cross chromos. These crosses are entwined with calla lilies, ferns, grasses, &c. We shall feel fully repaid for this gift if the articles are shown to your friends. Catalogue of 1,000 desirable and curious articles sent to all; 1c. and 2c. stamps taken. Address J. L. Patten & Co., 47 Barclay street, New York.

Profitable Stock Investments.

Before Messrs. Lawrence & Co., the New York bankers, inaugurated the combination system of operating in stocks, it was often very difficult for inexperienced operators, or even old stagers, to deal profitably by their single handed ventures. Now the field is open to every one for successful operations, and capital in any amounts, from $10 to $20,000, can be used with equal proportionate profit. Instead of distracting efforts among many customers, the orders of thousands are concentrated into one vast pool and co-operated for the benefit of all, dividing profits *pro rata* every month. A prominent citizen of San Francisco made $1,264.83 from an investment of $300 last month. Other customers are doing better still. $25 pays $125 during the month, $200 returns $1,200, or 6 per cent. on the stock, and so on as the market moves. New circular contains "two unerring rules for success," and full instructions for any one to operate profitably. All the advantages of unlimited capital and careful manipulation are secured by the combination method. Stocks and bonds wanted. Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City.

This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman. Station D., New York City.

False Impression.

It is generally supposed by physicians and the people generally that Dyspepsia cannot invariable be cured, but we are pleased to say that Green's August Flower has never, to our knowledge, failed to cure Dyspepsia and Liver Complaint in all its forms, such as Sour Stomach, Costiveness, Sick Headache, Palpitation of the Heart, Indigestion, bad taste in the mouth, &c. Out of the 50,000 dozen bottles sold last year, not a single failure was reported, but thousands of complimentary letters received from Druggists of wonderful cures. Three doses will relieve any case. Try it. Sample bottles 10 cents. Regular size 75 cents.

A Great Enterprise.

The Hop Bitters Manufacturing Company is one of Rochester's greatest business enterprises. Their Hop Bitters have reached a sale beyond all precedent, having from their intrinsic value found their way into almost every household in the land.—*Graphic.*

Medical.

Cuticura

REMEDIES

Infallibly Cure all Skin and Scalp Diseases, Scaly Eruptions, Itchings, and Irritations.

The testimonials of permanent cures of Skin and Scalp Diseases which have been the torture of a lifetime by the Cuticura Remedies, are more wonderful than any methods or remedies known to the medical profession.

Cuticura Resolvent, a powerful Blood Purifier, is the only purifying agent which finds its way into the circulating fluid and thence through the oil and sweat glands to the surface of the skin, thus destroying the poisonous elements with which these vessels have been daily charged.

Cuticura, The Great Skin Cure, applied externally, arrests all unnatural or morbid growth which cover the surface of the diseased glands and tubes with Scaly, Itching, and Irritating Humors, speedily it removes them, leaving the pores open, healthy, and free from diseased particles of matter.

Thus internally and externally do these great remedies act in conjunction, performing cures that have astonished the most noted physicians of the day.

Salt Rheum for 30 Years

On the Head, Face, and Greater Part of the Body, Cured.

Messrs. WEEKS & POTTER: Gentlemen,—I have been a great sufferer with Salt Rheum for 30 years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to an article in the Union on skin diseases, and I got a box of Cuticura. The first application was a great relief and the third took the scales all off, and I felt like a new man. I have used three 50-cent boxes and my skin is smooth and I consider myself entirely cured. Hoping that this may be seen by some one afflicted as I have been (if there is any) is my earnest wish. And I cheerfully recommend it to all persons afflicted with like diseases.

Yours truly,
B. WILSON LORD.

AGAWAM, MASS., Sept. 9, 1878.

The Cuticura Soap should be used for cleansing all diseased surfaces, as most soaps are injurious to the skin.

LEPROSY.

A Modern Miracle. Astonishing Results from the use of Cuticura.

Messrs. WEEKS & POTTER: Gentlemen,—We have a case of Leprosy in our poorhouse which is being cured by your Cuticura remedies The county had employed all of our doctors and had sent to New York for advice, but to no avail.

The patient commenced using the Cuticura and immediately began getting better.

He had been confined to his bed for two and one half years. Had not had his clothes on during this time. Last week he dressed for the first time.

When he walked, there would at least one quart of scales come off of him.

This happened every day.

We think it is a wonderful cure.

We do not think he is cured, but he is in a fair way to be cured to say the least.

Yours truly,
DUNNING BROTHERS,
Druggists and Bookse llers.

ALLEGAN, MICH., Feb. 11, 1879.

NOTE.—Messrs. Dunning Brothers are thoroughly reliable gentlemen, and were unknown to us prior to the receipt of this letter. We firmly believe that Cuticura will permanently cure this very severe case of Leprosy, as it has done many others.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all Druggists and Dealers. Price of Cuticura, small boxes, 50 cents; large boxes containing two and one half times the quantity of small, $1. Resolvent, $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.
